To Whom It May Concern,

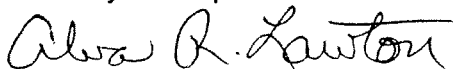

**Spectre International Ltd.  
“C” Ivy Mansions, Triq il’Qasam  
3025 Swieqi  
Malta**

I confirm that I have dealt with Spectre International Ltd. since 2004, during which time they have provided KBR with excellent support in all security related aspects of our projects based in Algeria.

Spectre continues to successfully manage all security related, but not limited to, aspects of a 4,5 billion dollar LNG project. From managing all travel aspects of over 4,000 people, through physical coordination of the entire project’s security system, Spectre operatives have always displayed tremendous judgement, a professional attitude and total commitment to helping us succeed. Our focus is their focus and they strive exhaustively to ensure they are facilitating our business needs while ensuring that all adhere to requisite and prudent procedures. We do not compromise on quality, and neither have our Spectre “lads.”

Spectre International’s teams have convincingly demonstrated that their competence, work ethic, and technical expertise are second to none. They have shown themselves to be adaptable and able to meet any challenge we have offered --- always without compromising the sacred trust we have with our workforce to keep them safe. Proof of satisfaction is in “repeat business” and to date I would have no qualms about using the Spectre team of professionals again. In fact, we have also used them in a non-project site capacity in Algiers for several years. The calibre of their team is such that we do not need direct daily oversight of their performance. We know what we will get because we know what we have gotten from them previously. The Spectre team has seen us through some rough events, including an earthquake and a terrorist attack on a bus transporting our workers. Their work has been a major factor in helping maintain the safety of KBR expatriate personnel and in-country facilities.

I can confidently recommend Spectre International Ltd. as a solid and reliable security and operational liaison supplier, and experts in their field.

Randy Lawton  
Vice President – Security  
KBR, Inc.
